Begin editing the parameters for the report you'd like to produce.

These are the first parameters you need to change. The red highlights are the defaults. I chose the options below. This report will sort the adverse events by the below selections.

If you want the details of each report (the summary of what happened in each adverse event), check this box.

IMPORTANT

Because there are now so many CV19 vaccine Adverse Events that have been reported to VAERS, you cannot run even a standard report as VAERS only allows 10k rows. We have to limit one of the "Group Results" now. I will show you how to do this in the next couple of slides.

Limiting Results

There are many ways to limit VAERS reports on the Parameters page. You can limit by vaccine manufacturer, state, age, sex, etc. For this report, we will limit the Event Category by "Death" and "Permanent Disability."

1. Scroll down to and click on "All Events" under "Event Category."
2. **Unselect** "All Events" and **Select** "Death" and "Permanent Disability."
